Evaluation of Equipment Lending Program

Dear Disability Support Services Staff:

It's that time of year again. We need to ask for your feedback on the Equipment Lending Program. According to our records, your college borrowed at least one item during the past year. It may have been a piece of software, a video magnifier, an assistive listening system, or an AlphaSmart note-taker. It may have been for a specific student, or it may have been installed in the library or your office for several students' use. You may also have borrowed some items to explore their features or learn how to use them.

Please take a few minutes to answer this short survey. If you are not the person in your office who has direct experience with the Equipment Loan Program, please forward this to the person who is familiar with the loan program.

Thank you in advance.
